

# Engineering Strength. Fabricated to Last.

Precision heavy fabrication and export-ready steel solutions for global EPC and Power Plant industries.

Yamunanagar | Haryana | India — Exporting to **UAE, Saudi Arabia & the GCC Region.**

# The Manufacturing Engine Powering Global Infrastructure

**PSU & EPC Fabrication**  
Core Strength

**SKK  
Engineering  
Backbone**

1. Heavy Fabrication  
& Welding

2. Quality Assurance  
& Inspection

3. Surface  
Treatment &  
Coating

4. Engineering &  
Documentation

**Export Fabrication**  
Growth Vertical / GCC Focus

**Oil & Gas  
Fabrication**  
Capability Development

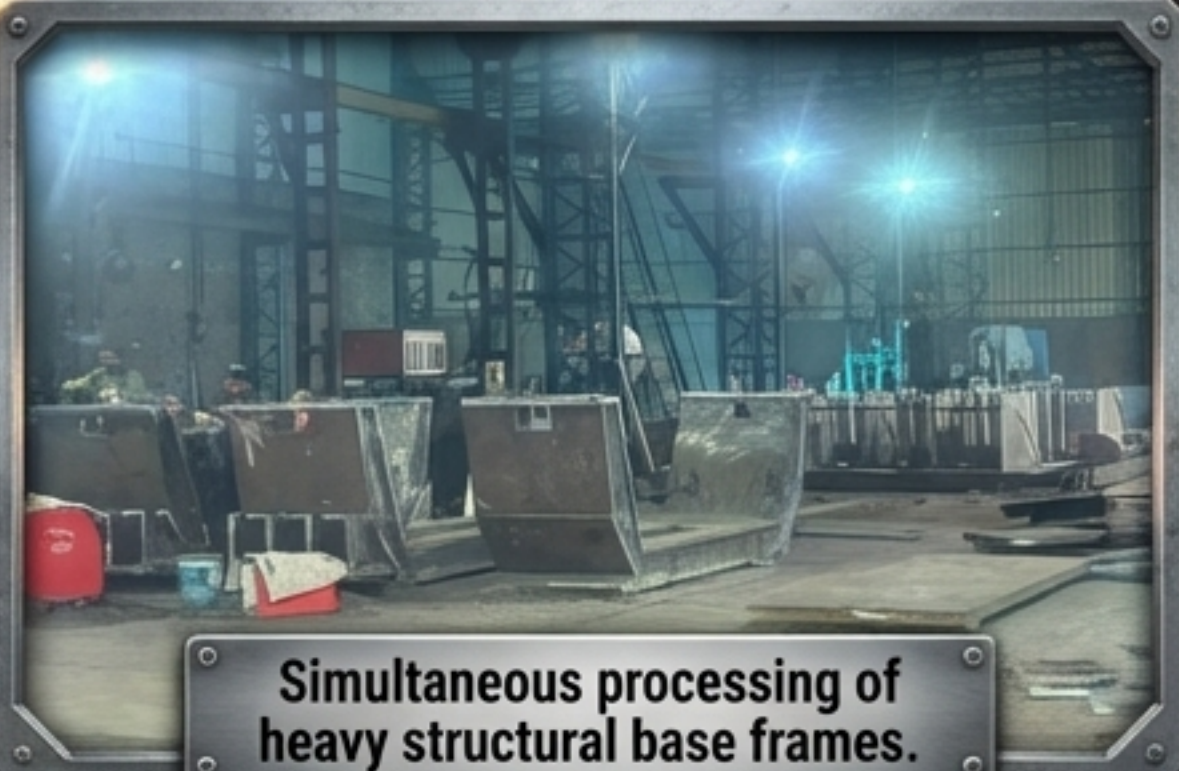

# Uncompromising Scale for Heavy Structural Demands

**Handling heavy boiler and pressure vessel components with integrated lifting infrastructure.**

**Precision assembly of high-volume pressure vessels.**

**Simultaneous processing of heavy structural base frames.**

# 6-Sigma Principles Grounded in Factory-Floor Reality

## Step 1: Inspect Materials

Rigorous raw material inspection and defect identification before fabrication begins.

## Step 2: Implement Quality Checks

In-process weld testing, dimensional checks, and structural integrity verification.

## Step 3: Enhance Satisfaction (Ready for Dispatch)

Final surface treatment inspection ensures defect-free delivery and zero returns.

# Strategic Alignment Across Three Core Industry Pillars

## PSU & EPC Fabrication

**Status:**  
Core Strength

**Primary Market:**  
India's Leading Power  
& EPC Projects

### Key Deliverables:

- Heavy Steel Structures
- Boiler & Pressure Vessels
- Ducting, Columns & Equipment

## Infrastructure & Export

**Status:**  
Growth Vertical

**Primary Market:**  
GCC & Middle East  
(UAE, Saudi Arabia)

### Key Deliverables:

- Solar MMS Structures
- Pre-Engineered Buildings (PEB)
- Pipe Racks
- Galvanized Industrial Structures

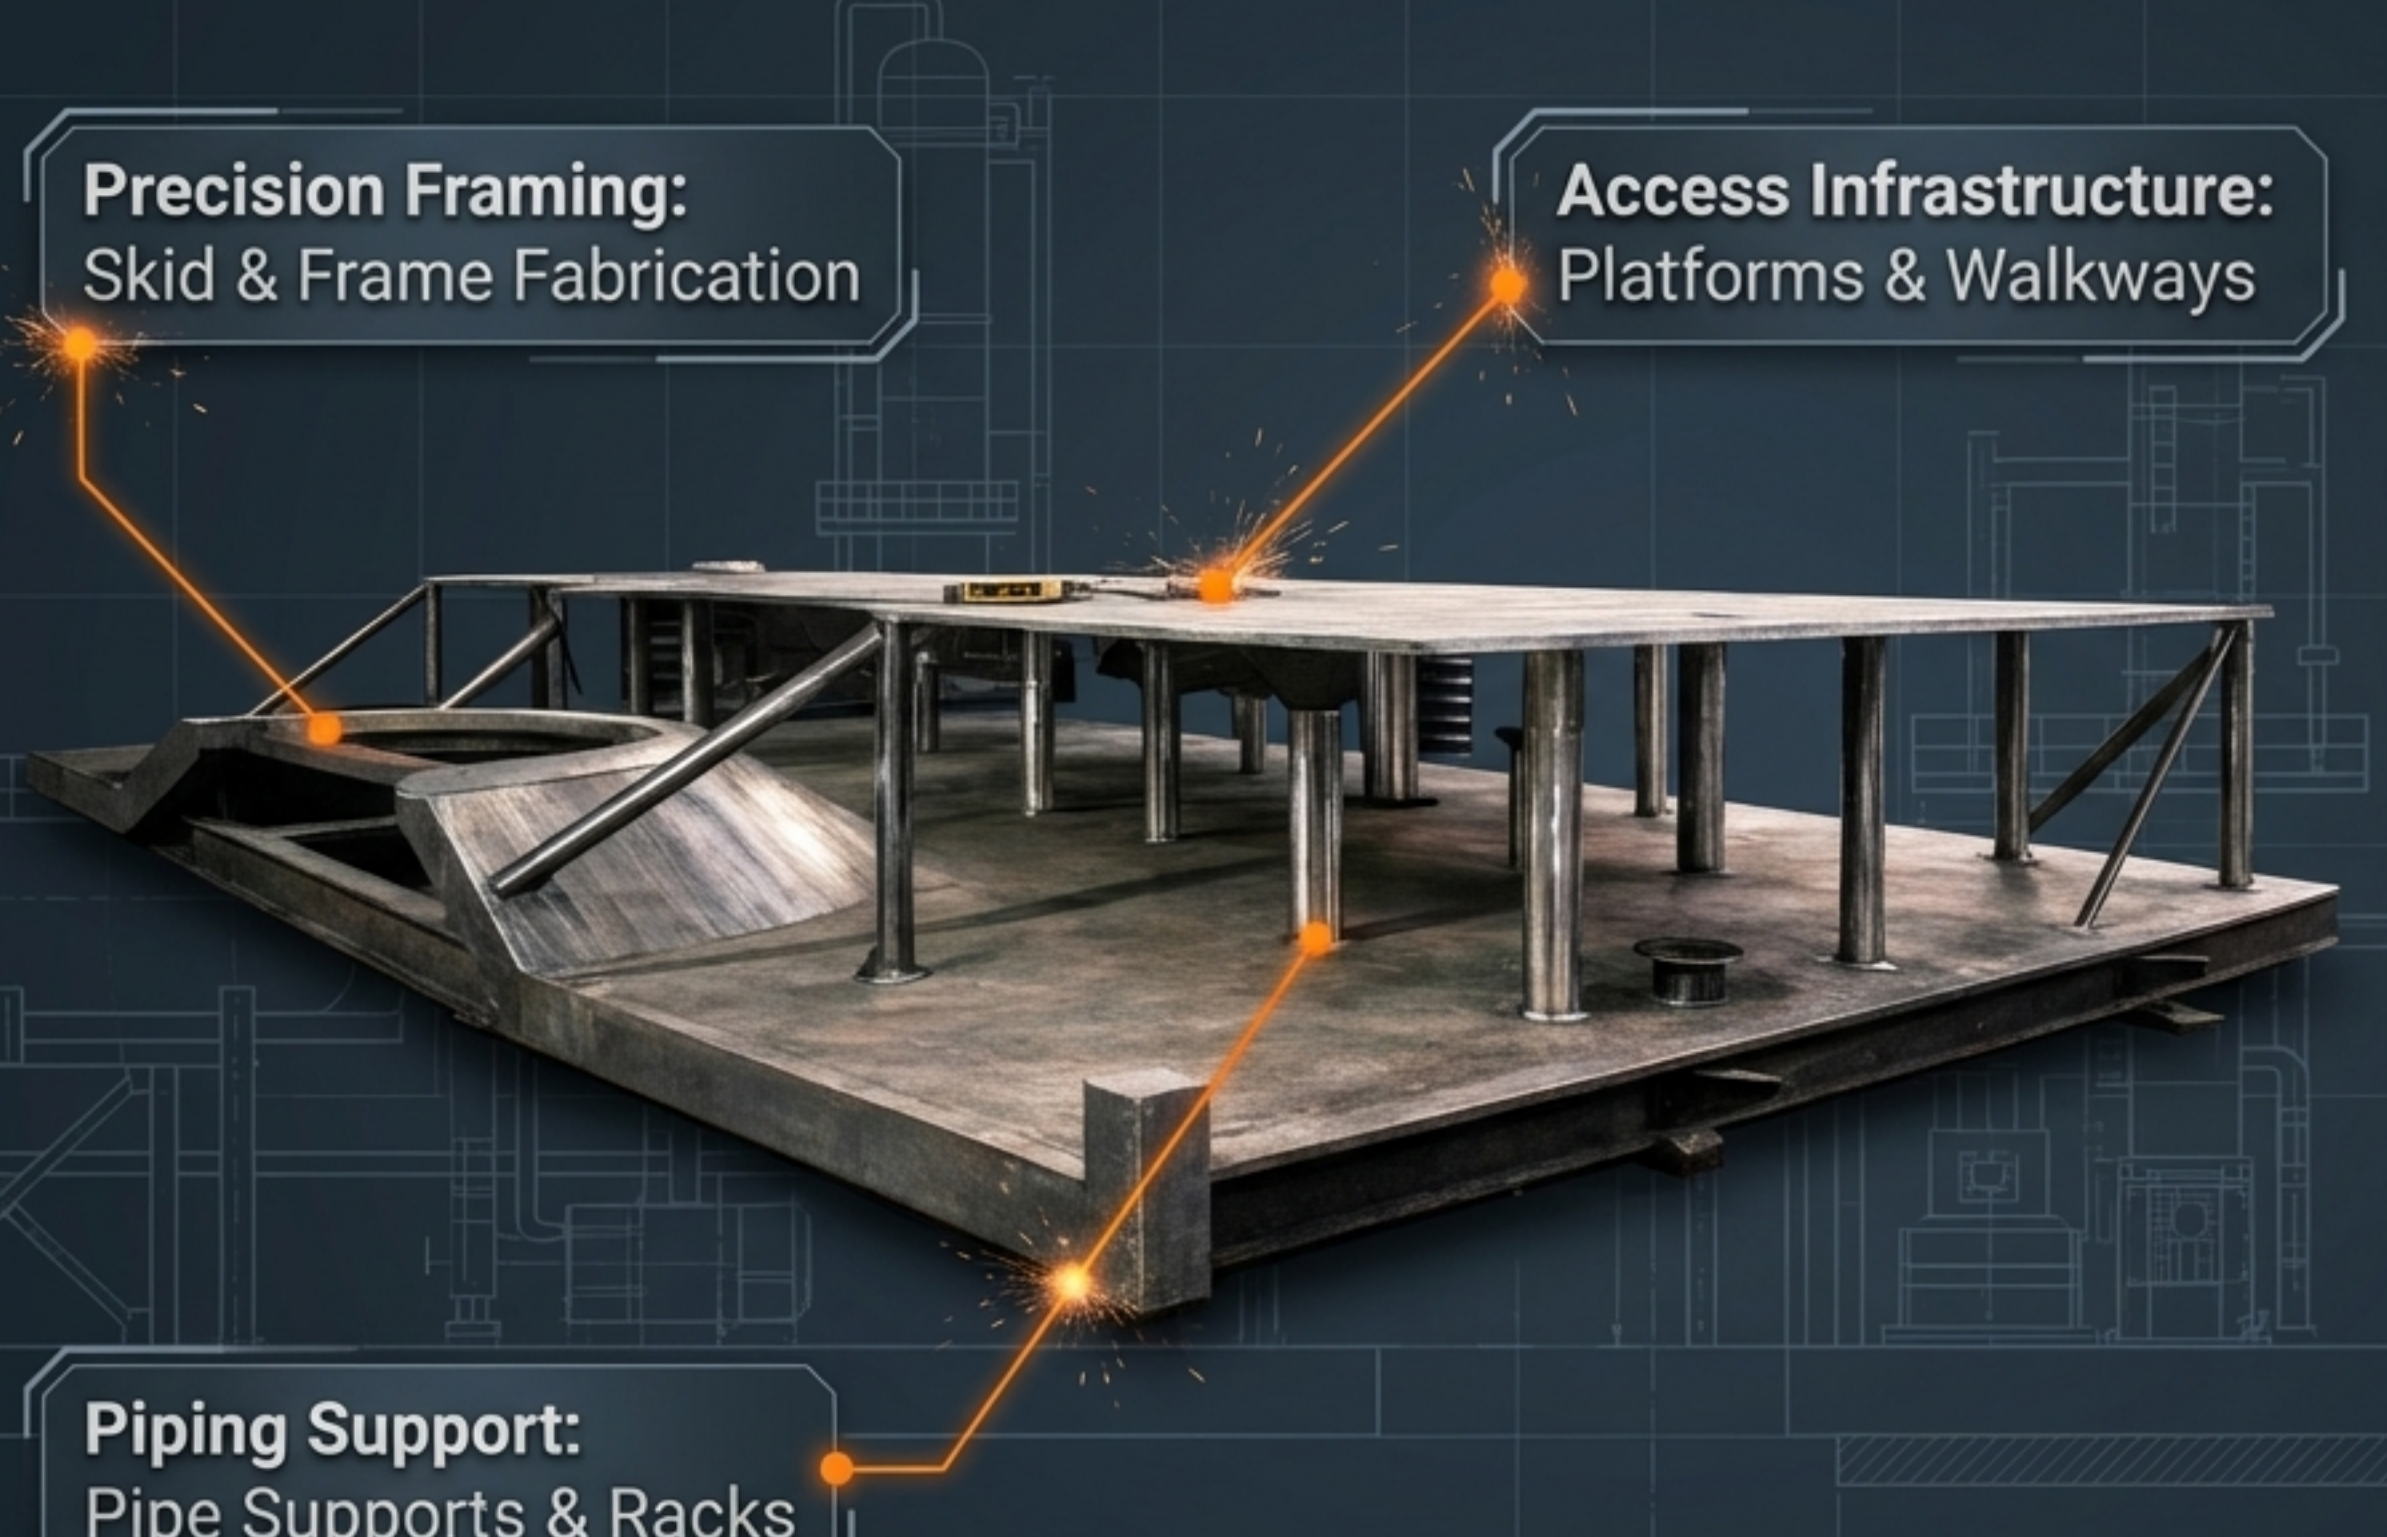

## Oil & Gas Fabrication

**Status:**  
Capability Development

**Primary Market:**  
Future-ready energy sectors

### Key Deliverables:

- Pipe Supports
- Platforms & Walkways
- Skid & Frame Fabrication
- Tanks & Storage

**Precision Framing:**  
Skid & Frame Fabrication

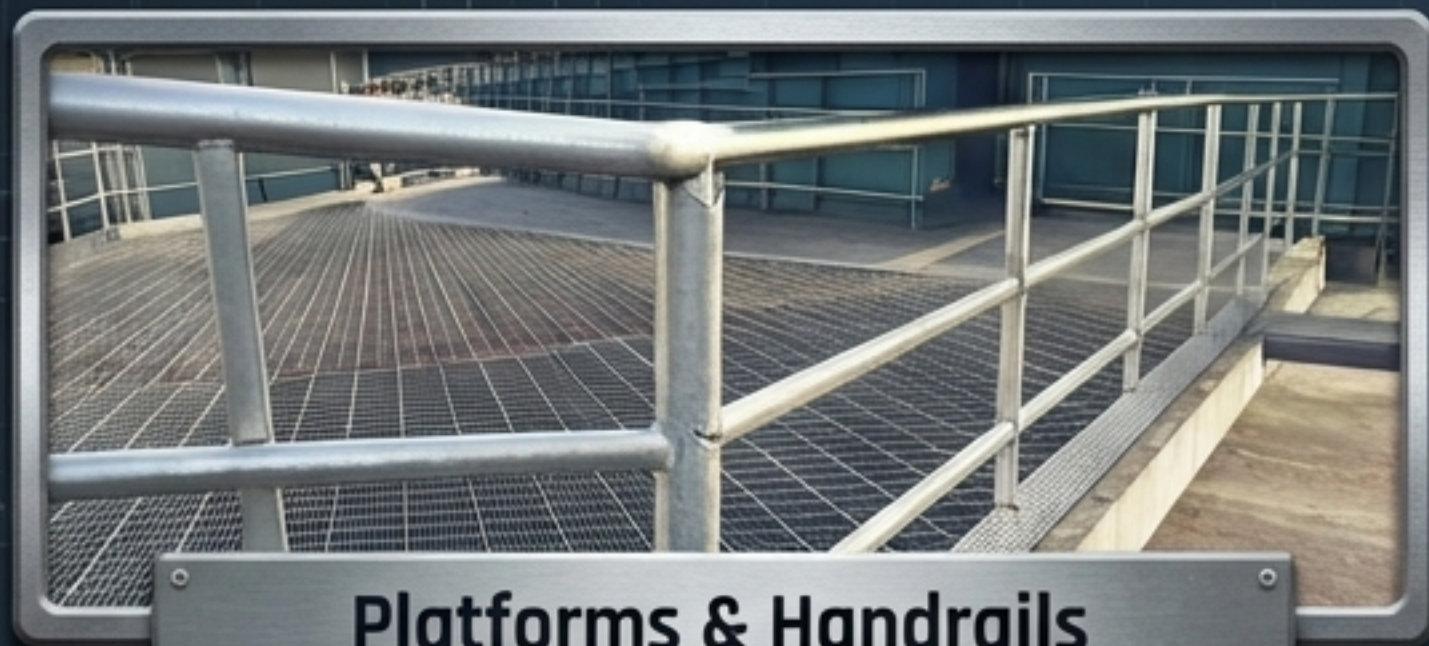

**Access Infrastructure:**  
Platforms & Walkways

**Piping Support:**  
Pipe Supports & Racks

## Future-Ready Fabrication.

Aligned with stringent Oil & Gas EPC requirements, focusing on everything from small utility items to massive storage tanks and integrated modular skids.

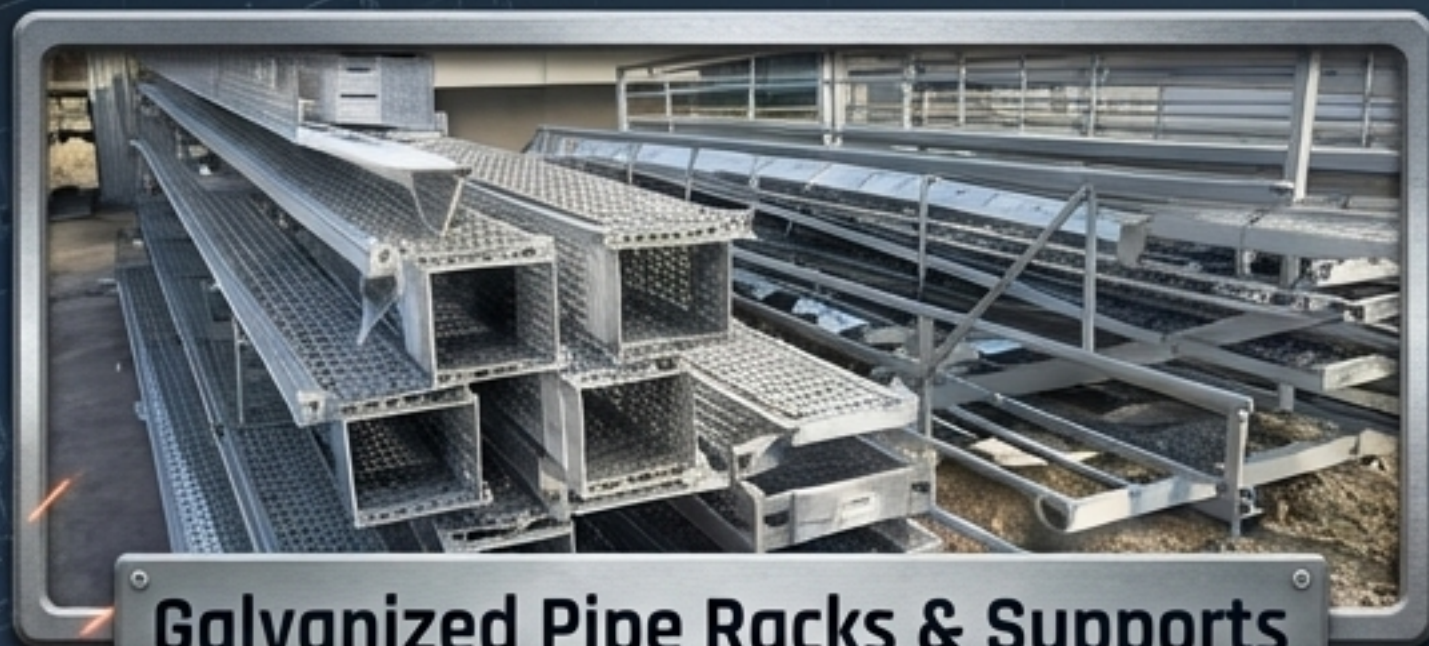

# High-Volume Infrastructure Components for the GCC

**Platforms & Handrails**

**PEB Steel Beams**

**Galvanized Pipe Racks & Supports**

**Solar MMS Structures**

**Commonly Exported Parts to UAE, Saudi Arabia, and the broader GCC Region.**

# The SKK Cross-Vertical Capabilities Matrix

	Power & EPC	Oil & Gas	Export Infrastructure
Heavy Steel Structures	✓	✓	
Pressure Vessels & Boilers	✓		
Skids & Frames		✓	
Pipe Racks & Supports		✓	✓
Platforms, Handrails & Walkways	✓	✓	✓
Solar MMS & PEB			✓

**Rigorous QA/QC and Certifications applied universally across all manufactured assemblies.**

# Bridging Indian Manufacturing Power with Middle Eastern Demand

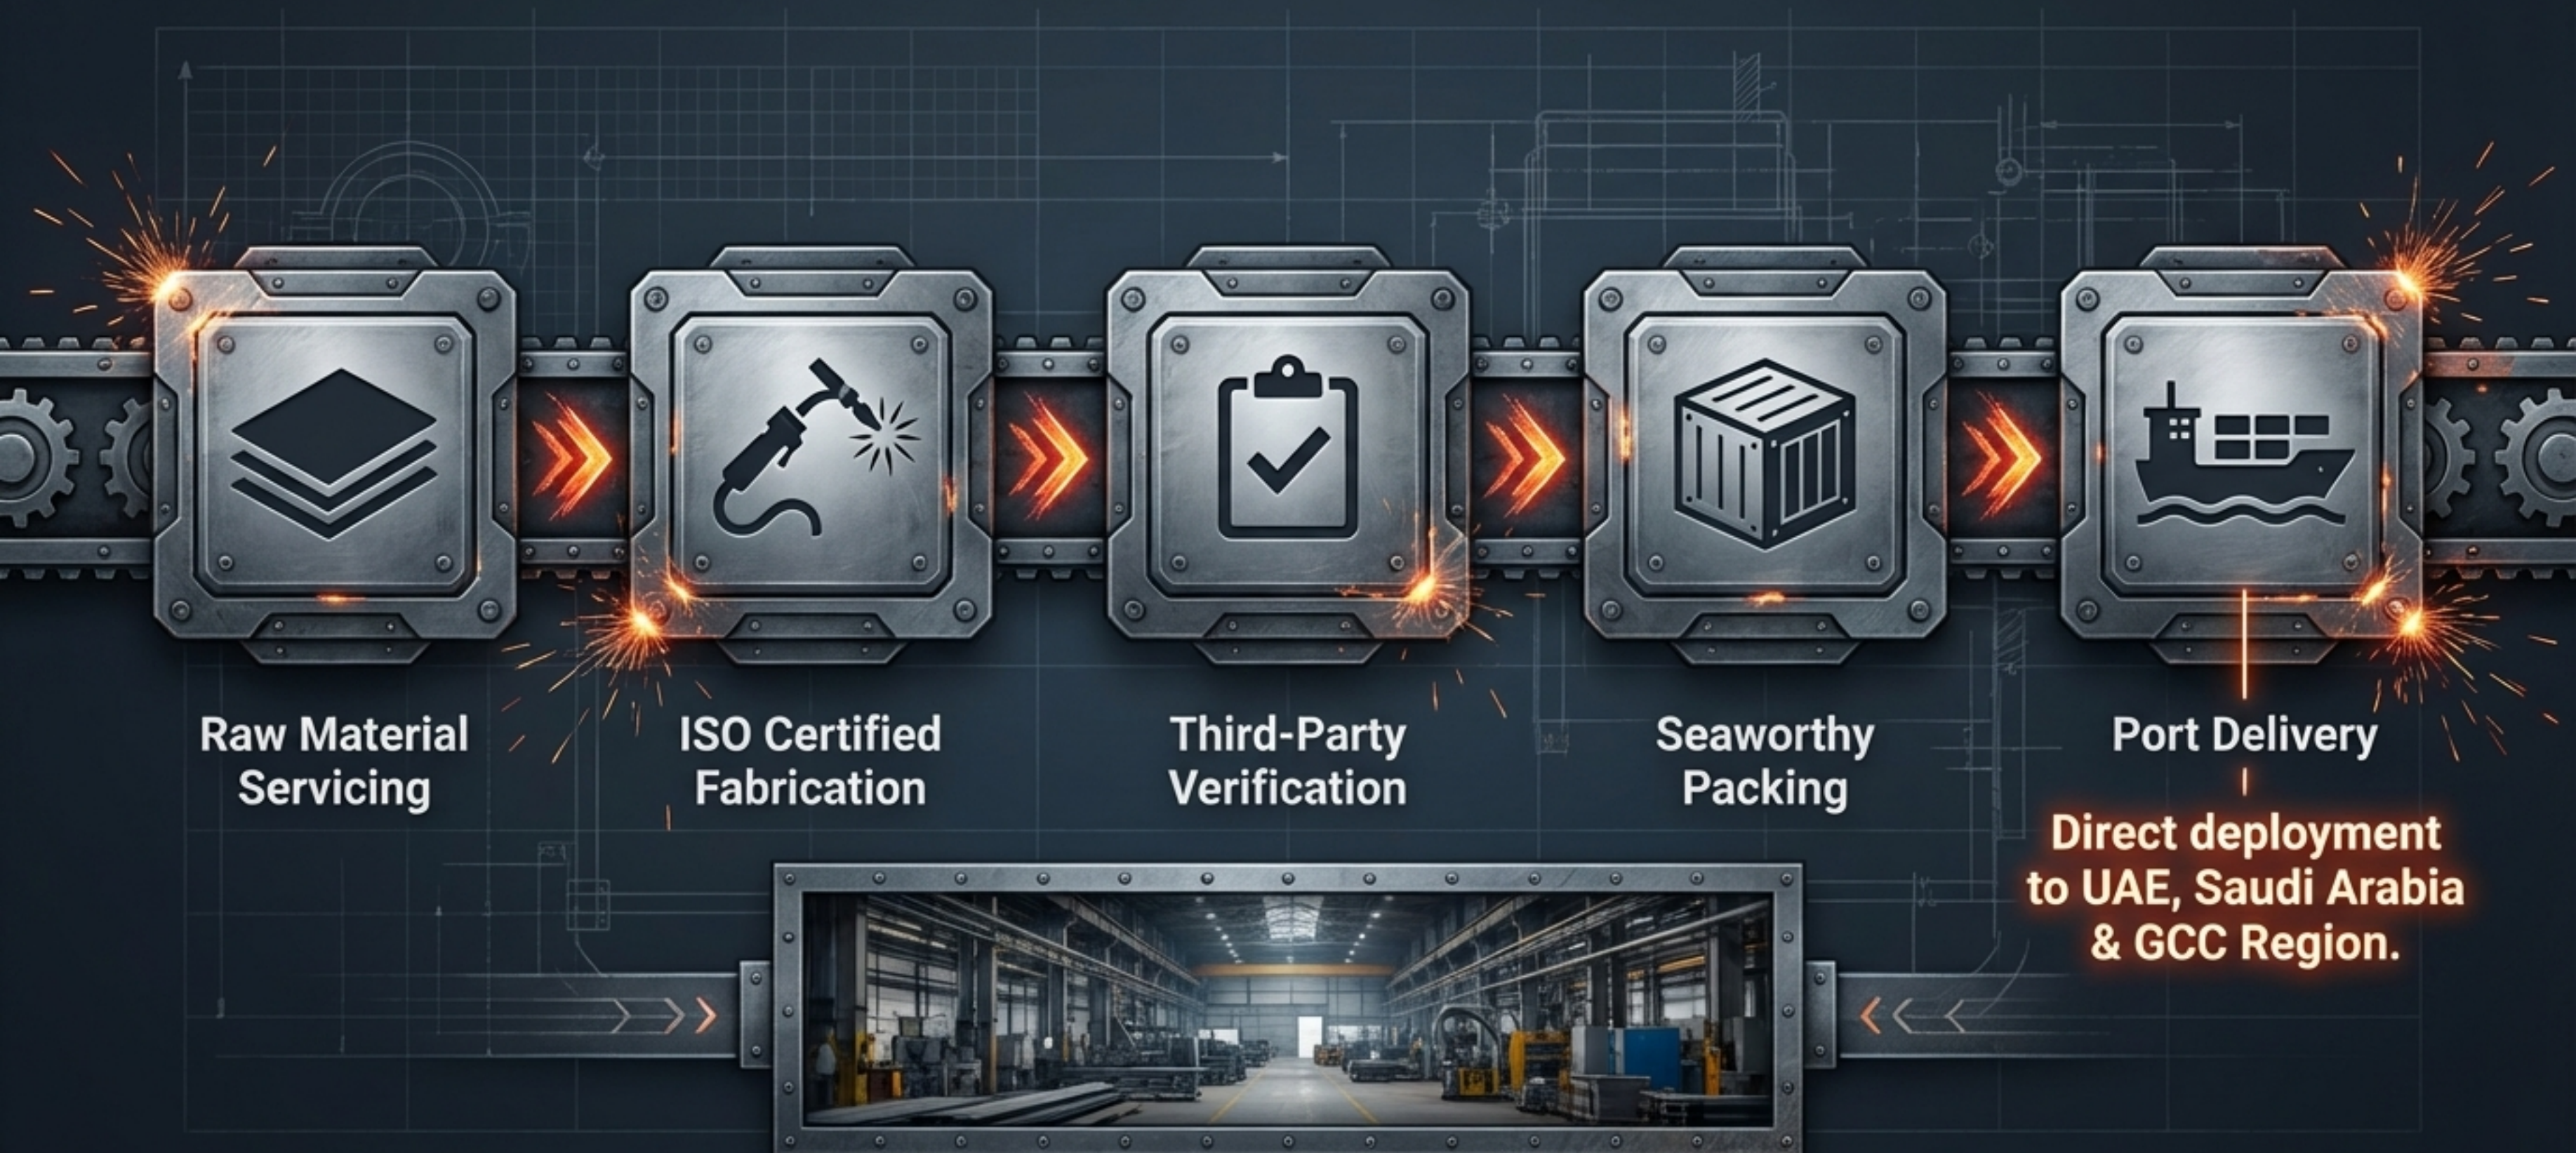

## The Fabrication Power

Leveraging decades of domestic PSU & Power Plant heavy engineering experience to guarantee unparalleled structural integrity and scale.

## The Export Readiness

- 1. ISO Certified Manufacturing:** International standard compliance from day one.
- 2. Third-Party Inspection Reports:** Independent verification for absolute peace of mind.
- 3. Seaworthy Export Packing:** Specialized logistical preparation to ensure zero transit damage.

# The Export Pipeline: From Raw Steel to Regional Port

# Forged in India. Engineered for the World.

Your vertically integrated partner for heavy structural fabrication,  
oil & gas skids, and export-ready infrastructure.

## Company:

Shree Krishan Kirpa Associates (SKK Engineering)

## Facility Location:

Yamunanagar | Haryana | India

## Global Reach:

 India •  UAE •  Saudi Arabia •  GCC Region
